

Buckets Conveyor Fill and Seal Machine VFH6-B420

- Make Pillow Bag.
- Counting Plate Integrated.
- All the machine are made of stainless steel SS304.

Basic Information:

- MCU control system with 5 inch LCD HMI. Working Status Indicated.
- Photocell for film length registered and automatic adjustment in 3 bags.
- Simple and fast bag size changeover with one-piece forming set.
- Work with most of laminated heat seal films.
- All product contact parts in #304 stainless steel or food grade plastic.
- Sealing Jaws cover protector.

Additional Info:

Bag Styles:	Pillow Bag
Bag Width:	30 to 135mm (1.2 to 5.3")
Bag Length:	30 to 180mm (1.2 to 7")
Product Characteristic:	Granules
Dosing System Compatible:	Counting Plate Integrated
Running Motion:	Intermittent
Working Efficiency:	20-60 Bags/Min
Control By:	MCU with LCD
Date Coding Can Be:	Hot Stamping Coder
Options Available:	Perforation, SS Frame, Nitrogen Flushing, Air Expeller
Film & Reel:	0.04-0.12mm (30-120mic.) Real Max.Dia.400mm (15.8") Max. Reel Width 300mm (11.8")
Power & Voltage:	2.0KW
Compress Air:	Need 0.6 MPa 0.36 M3
Dimensions:	950 x 750 x 1650mm (33.5 x 25.6 x 65")
Machine Weight:	400 KGS
