

## ***DXD-500 Type Automatic Compound Film Packer***

On the basis of "Hua Yu" brand automatic liquid packer, this packers a newly-developed machine pattern. It is widely applied to the filling of such liquid materials as drinks, juice, milk, soya-bean milk, peanut milk, soy sauce, vinegar, yellow rice wine, edible oil and etc. with the elegant bag shape, the bags are in good taste with firm sealing. And after sterilization, the products' shelf life can be up to one to three months. Therefore this packer is your first choice for liquid materials.

- \* Automatic tape supply and drift correction
- \* Automatic cursor location to guarantee that the products have compact printing patterns
- \* Quantitative filling
- \* Linear haul-off feed bags
- \* Carbon tape date printing

### **主要技术参数 Main Technological Parameter**

生产效率 Production efficiency	1500或2000袋/小时 1500 or 2000bags/h
薄膜宽度(mm) Film width(mm)	320 or 240
电 压 Voltage	380v/220v 50hz
功 率 Horse power	1.5kw
机器重量 Machine Weight	about 800kg
外型尺寸 Overall dimension	1060X1150X1900mm
