

SP-60B Expanded Food Packaging Machine

Main feature:

1. Back seal;
2. Can automatically complete the bag, measuring, cutting, sealing, cutting, counting, print batch number and other functions;
3. The use of advanced microcomputer controller, drive stepper motor control bag length, stable performance, easy adjustment, accurate detection;
4. Choose intelligent temperature controller, PID adjustment, to ensure that the temperature error range is controlled within 1 °C.

Apply to:

Expanded foods, shrimp, peanuts, popcorn, tea, cereal seeds, sugar, spices and other granular, short strips, sheet solids.

Performance parameters:

Bag size length:	30-190mm / width: 30-140mm
Packing speed	30-60 bags/minute
Measuring range	3-150ML
Power supply	220V/50HZ / 1.9KW
Total weight	400KG
Overall Dimensions	(L×W×H) 900×700×1700mm
