

## *SRJL Leak Detector*

SRJL Leak Detector is designed to check the quality of pre-welding. Inspection is carried out by pressure. This equipment is characterized by simple structure and easy operation. Pressure and speed are adjustable.

### **Main Technique Parameters:**

- Electron speed regulate range: 0 - 123 round / min
- Pressure: 0.4 - 0.6 / Mpa
- Gas Consumption: 0.2m<sup>3</sup> / hour
- Power: 40w

As an experienced Chinese manufacturer and supplier of leak detectors, the company FE Pharmatech offers a visual inspection of the machine, the machine for filling and capping bottles of liquid drugs and more
