

Filter Paper Coffee Bag Packing Machine KST-168

Application:

◆ Inner and outer bag packing of herbal tea, health tea, coffee powder, dehydrated vegetables and plants and granules in small particle

Features:

- ◆ VOLUMETRIC feeding and weighing system, high working efficiency and easy operation.
- ◆ MITSUBISHI PLC and WEINVIEW touch screen, stable packaging performance.
- ◆ Widely application, except for the tea, it can be applied to the coffee powder and small particles.
- ◆ Customized bag size based on customer's requirements.
- ◆ PID temperature control.
- ◆ Long life service, easy operation and maintenance.

Parameters:

| Model | KST-168 |
|---------------------|---|
| Working speed | 40-60 bags/min |
| Filling system | VOLUMETRIC CUP |
| Filling range | 1-15ml/bag |
| Sealing method | Heat sealing |
| Bag type | Rectangular, three sides sealing |
| Acceptable bag size | Inner: 50-70mm * 40-80mm(L X W) Outer: 85-120mm * 70-95mm(L X W) |
| Air consumption | ≥0.6Mpa ,0.4m ³ /min (Air compressor to be prepared by client) |
| Power | Single phase,220V, 50/60Hz |
| Gross weight | 468kg |
| Overall dimensions | 1280 * 780* 1840mm |
