

## *Semi Automatic Flow Scale Machine ZD-30L/ZD-60L*

Semi automatic flow scale can display the flow rate of rice or granule materials for the period of time, such as one hour or one day, etc.

And it is suitable for weighing heavy materials, with Auto Bagging Machine or Semi Solid Filling Machine.

### **Brief Introduction:**

1. Data communication and signal acquisition can be carried out with the host computer by using touch screen instrument.
2. The shell is well sealed. Reserve return air passage to prevent dust from rising out
3. FESTO pneumatic element and TOLEDO sensor, the performance is stable and reliable.
4. Adopting hermetic air return system to keep dust inside to meet requirement of environment.
5. Adopting static gauging method to make sure gauging accurately without any error.

### **Application:**

Raw material weighing and intermediate weighing for granular materials in industries of grain, feed and oil, etc. Such as, Rice Packing Machine and Sugar Bagging Machine.

**Technical Parameters:**

<b>Model</b>	<b>ZD-30L</b>	<b>ZD-60L</b>
Rated Packing Weight (kg)	1-5	5-15
Output (T/h)	30	60
Division Value (g)	10	10
Packing Accuracy	X(0.2)	X(0.2)
Volume weight of single measuring devices (m3)	0.2	0.36
Packing Speed(bag/h)	300-360	300-360
Power	AC220 50HZ 0.1KW	
Air	Compressed Air0.5-0.7MPa
