

ATM-620 Large Vertical Packing Machine

AUTOMPACK's mission is to keep developing intelligent vertical packaging machines and offer full automatic packaging solutions. Till nowadays, we already have successfully developed over 25 types packaging machine included in pillow bag/gusset bag / quad seal bag / 3 or 4 sides sealing bag, connected strip bag form fill seal bagger, and with these equipment able to pack all different kinds of material such as most daily snacks, food, liquid, paste, Powder etc. forming and metal spares, high technical material, vegetable, etc. cover agriculture, industrial, manufacturing all sorts fields material and commodities to pack favorable through our vertical packing machine.

Technical Characteristics:

- English and Chinese screen display, operation is simple.
- PLC computer system, function is more stable, adjustment any parameters not need stop machine.
- It can stock ten dispose, simple to change variety.
- Sever motor drawing film, position accurately.
- Horizontal, vertical temperature control, suitable for various of mix film, PE film packing material.
- Packing type diversification, pillow sealing, standing type, punching etc.
- Bag-making, sealing, packing, print date in one operation.

Technical Parameters:

Model	ATM-620
