

Pure Water Filling 3in1 Machine HYF-series

Description

Combine rinsing. Filling and capping in monoblock for filling drinking water.

1. Adopting directly connection between air conveyor and inlet star wheel which is easier or bottle changing
2. Adopting clamp transferring technology, bottle shapes are more varied, and the working table inside the machine is more laconic.
3. With little abrasion, stable transferring ,easy to change bottle
4. Stainless steel bottle clamp avoids a 2nd contamination
5. Excellent SS or food level plastic to liquid. Electric system is of international brand and achieves national food sanitary standard
6. The bottle-out star wheel is of screw down shape, No need to adjust transferring chain's height to different bottle.

Specification:

Model	HYF8-8-3	HYF12-12-5	HYF18-18-6	HYF24-24-8
Production capacity (500ml/bottle per h)	3000	4500	8000	10000
Suitable height(mm)	150-340			
Suitable diameter(mm)	0.2			
Spraying pressure(Mpa)	2.2	3.2	3.8	4.2
Power Supply(KW)			0.2~0.3	0.2~0.3
Filling Temperature	Room temperature			
Dimension(m)	2.1*1.5*2.3	2.4*1.8*2.3	2.5*1.8*2.3	2.8*2.0*2.4
Weight(Kg)	2000	2500	3000	4000

Model	HYF32-32-10	HYF40-40-10	HYF50-50-12
Production capacity (500ml/bottle per h)	15000	18000	20000
Suitable height(mm)	150-340		
Suitable diameter(mm)	0.2		
Spraying pressure(Mpa)	5.6	6.3	7.5
Power Supply(KW)	0.2~0.3	0.2~0.3	0.2~0.3
Filling Temperature	Room temperature		
Dimension(m)	3.7*2.6*2.6	4.0*3.0*2.6	4.5*3.4*2.6
Weight(Kg)	5000	6000	7000
