

Pillow Pack Packaging BG-250BD

BG-250BD double motors pillow food packing machine for steamed bun, steamed bread.

Main performance and structure features

1. Double motors, converter and PLC controller, flexible bag length setting and cutting, saving time and film.
2. human-machine interface, convenient and quick parameter settings.
3. Self diagnosis failure function, failure displayed clearly.
4. High sensitive optical electric color mark tracking system and digital input cut position, which make the sealing and cutting more accurate.
5. Separated PID control system for temperature, suitable for various packing materials.
6. Stopping the machine in selected position, no sticking on the knife and no waste of the film.
7. Simple driving system, reliable working, convenient maintenance.
8. All controlled by program, convenient for function adjusting and upgrading.

Application:

Applying to the packing of various kinds of items with regular shape in many industries, like food, hardware, medical products, daily use products, stationary, toys, hotel supplies, electric products etc.

Technological parameter:

- Model: BG-250B
- Film width: Max.250mm
- Bag length: 65~190mm or 120~280mm
- Bag width: 30~110mm
- Product height: Max.40mm
- Film roll diameter: Max.320mm
- Packing speed: 40~230 bags/minute
- Power supply: 220V, 50/60HZ, 2.4KW
- Size: (L)3770×(W)670×(H)1450mm
- Weight: 500Kg
- Film material: Customized
- Color: Customized
