

Flow Wrap Packaging Machine – CE-400S/HDL

Features:

- Double transducer control, flexible bag length cutting, operator no need to adjust the unloading working, saving time and saving films.
- Human-machine operation, convenient and quick parameter setting.
- Self-diagnosis failure function, clear failure display.
- High sensitivity optical electric colour mark tracking, digital input cut position which makes the sealing and cutting more accurate.
- Separate PID control to temperature, suitable for various packing materials.
- Stopping the machine in selected position, no sticking to the knife and no waste packing film.
- Simple driving system, reliable working, convenient maintenance.
- All the controls are achieved by software, convenient for function adjusting and upgrading.

Technical Parameters:

Film Width	Max 400mm
Bag Length	150 – 400mm
Bag Width	50-180mm
Product Height	Max 65mm
Film Roll Diameter	Max 320mm
Packaging Speed	30-150 bag/min (according to the product condition)
Power	220v 50/60Hz 2.8kw
Machine Size (LxWxH)	4020 x 800 x 1450mm
Machine Weight	About 700kg
