

Powder filling weighing machine (15kg) UMEO-600F

The powder filling weighing machine had been shipped to Germany in 2019 year for different powder packaging; From the video, the screw conveyor is an open design which is much more convenient to clean for different powder conveying. The whole production line can weight for different weights from 3gr to 50kg by different pouch, can, container, bottle etc., even it can be connected with more machines, such as bottle unscrambler, horizontal conveyor, capping machine, labeling machine, ink-jet printing machine etc., to realize full automation.

Application

Automatic 15kg powder filling machine is widely applied to different powder package, such as flour powder, spices powder, coffee powder, coco powder and so on.

Technical Parameters:

Model	UMEO-600F
Machine material	stainless steel 304 / 316#
Weighing Range	3gr - 50kg
Auger Filler Hopper	30 / 50 litir
Driving Type	servo motor
Power	servo motor:200W, stir motor:350W, 380V, 60HZ
Filling Speed	20-120 times/min
Total Cubic Mater	3.462 CBM
Gross Weight	512 kg
H.S.Code	8422.3030.90
