

## FFC Bottom Reel Packing Machine

FFC series packing machine are specially designed for assembly packing of several blocks. This machine adopts film bottom sending to achieve automatically wrap, form and seal, solve the problem of packing several blocks without tray, save film. Also we can design the film width 720mm or 820mm to satisfy the big product packing requirement.

Packing material: Paper/PE OPP/PE, CPP/PE, OPP/CPP OPP/AL/PE, the other material which we tested suitable for packing.
