

Quadro weight System packaging machine QW- 10

The latest German technology has been used to manufacture this industrial line, such as the compressed air systems, drive and control sensors, and optical sensors, in order to provide good performance, high speed and continuity of work for 24/7. It is equipped for the purpose of packing the (Biscuits- Snacks- Nuts).

Filling Group:

- The weighing machine is equipped with 10 modern and advanced scales (Smart Collection System).
- The weighting system operates from (1g) to (1000 g), taking into account the volumetric mass of the material.
- The capacity of each scale-pan is 1.5 liter.
- The control system is provided by a three-languages 10 inch color touch screen.
- Can save 99 different programs.
- The program is simple and easy to adjust and calibrate.
- Equipped with an automatic or manual zeroing system.
- The ability to control the speed of opening and closing the scale-pans according to the nature of the product to be filled.
- Equipped with a comprehensive testing system for all scale movements.
- The filling tank is equipped with an automatic feeder system (photocell) to control the feeding line.
- Equipped with a central circular loader.
- Equipped with 10 horizontal vibrators that can be adjusted and calibrated accurately.
- Equipped with 10 waiting pans that can be removed and installed easily.
- Equipped with 10 scale-pans that can be removed and installed easily.
- All the parts of the machine that touch the products are made of stainless steel 304.
- It is designed to be waterproof for easy cleaning.

Spare parts come with the weighing machine (weight sensor – gate motor sensors – waterproof gaskets).

Specifications:

Filling system	Weighting
Products	All Kinds of chips , candies , Nuts, and biscuits
Working System	Penumatic
Packing System	Weight 10 weights
Bucket Size	1.5 L
Weight accuracy	0 - 03 g
Weight range	10 -1000 g
Bag Width	70-300 mm
Control system	PLC System LS Brand High Speed
Control screen	LDC touch colored screen LS Brand with three languges
Packing speed	40-60 bags/min
Packing material	OOP , CPP , PET , all but PE
Gear box	VARVEL brand-ITALY
Motors	CAMAK brand -TURKEY
Electric parts	SCHNDIDER , LS , AUTONICS , SICK
Electrclty	380 V,50 HZ
Power requirments	8 KW / 15 A
