

High Efficient Fruit Vegetable Packing Machine JY-600XD_700XD

Feature:

1. Three Servo motors, PLC control, one stop operation for bag length setting and cutting,
2. All control in one control panel, user-friendly and easy operation
3. Box-motion cutter for high products packing and ensure the compact package
4. Empty bag prevention, no product no bag
5. Update version of anti-cut on product function, perfectly avoid damage on the products and the cutter
6. Independent control for movement of center sealing part and end sealing part, to meet different product height
7. Have alternative choose for flexible length system and fix length with guide pusher
8. Use 304 stainless steel for touch part, it is food grade.

Scope of application:

It is suitable for vegetable and fruit packing, also for other food Anti-rush product packing, agricultural products

Optional device:

- Date coder
- Automatic punching Device
- Full Stainless steel
- Large Touch Screen

- Air filling device
- Air-exhausting device
- No empty bag function
- Customized sealing patterns and notch
- Automatic feeder
- Automatic feeding device

Parameter:

Model	JY-600XD	JY-700XD
Film width	Max.600mm	Max.700mm
Bag length	120mm- longer	120mm-longer
Bag width	100-280mm (depends on product's height)	100-330mm(depends on product's height)
Product height	Max.110mm (can be customized)	Max.110mm (can be customized)
Packaging rate	5-40bag/min (depends on product size)	5-40bag/min (depends on product size)
Power	220V 50/60Hz 2.8KW	220V 50/60Hz 2.8KW
Machine size	(L)4020×(W)920×(H)1460mm	(L)4020×(W)980×(H)1480mm
Machine quality	About680kg	About700kg
Film roll diameter	Max.320mm	Max.320mm
Packing material	OPP/CPP,OPP/PE,PET/PE	OPP/CPP,OPP/PE,PET/PE
