

Automatic Two heads Powder Filling Machine

Brief instruction:

It is automatic powder filling machine with double auger filling devices and double filling heads to increase produce capacity. It is suitable for filling powder product such as milk powder, rice powder, white sugar, coffee powder, monosodium glutamate, solid beverage etc into containers like bottle, jar, can.

Features:

1. It is made up of stainless steel, which is sanitary.
2. With PLC controlling system and Touch screen, stable performance and easy operation.
3. The auger filling system is driven by servo motor which assures high filling accuracy.
4. With weight feedback system
5. Can save 10 groups parameter settings; it is convenient to run different size.
6. By replacing filling device, can use it to fill small granule product.
7. Powder feeding elevator is available for optional.

Parameter:

Speed	≤3000pcs/Hour (for500g)
Filling range	10-5000G(By different auger)
Filling accuracy	≤ 500g, Tolerance≤±1.5g
	500~1000g, Tolerance≤±2.5%g
	>1000g, Tolerance≤±4g
Hopper volume	50L
Size of the container	Diameterφ50—180MM ;Height 50-350MM
Metering Mode	Dual auger filling & weighing

Working Pressure	0.6-0.85Mpa
Air Consumption	0.2M3/Min
Power	3kw
Voltage	380V±5% (3Phase 5 wire)
Net Weight	260Kg
Size	3000×1275×2200MM
