

ZX-F-50 Powder Weighing Filling Machine

Introduction

- Closed filling, no dust flying.
- Servo motor drive screw feeding, operation, debugging is simple and convenient.
- Fast, medium, slow three - level feeding, electronic scale weighing metering, both fast and accurate.
- According to different materials, different leakage prevention devices can be added.
- PLC control, Chinese touch screen operation.
- Can open the warehouse, cleaning and maintenance is convenient.

Technical Parameters:

Packed weight	500g-50Kg
Packaging accuracy	$\leq \pm 0.1-0.2\%$
Packaging speed	120-300 bags/minute
Voltage	AC380V 50/60Hz
power	2.7Kw
Machine weight	350Kg
Machine size	1000*1000*2500mm
hopper volume	70L
