

Automatic VFFS Machine System With Auger Filler DCS-3A-BX400/500

Automatic Bag Forming Filling Packaging Machine is designed for filling various powder product into sachet, such as coffee powder, tea powder, milk powder, grain powder, seasoning powder, medical powder and etc

Introduction:

This is a automatic vertical form-fill-seal packaging machine, it can offer complete filling-packaging - weighing solutions. It designed to dose all kinds of dry powder into standard package: Center seal pillow bag as standard / Three sided seal bag, Four Sided seal bag, Triangle bag can be custom-made.

Notes: The Powder was dispensed and weighed by auger filler into the package which was made by plastic film through the bagging machine and seal the filled bags

Machine Parameter:

| Model | DCS-3A-BX400 | DCS-3A-BX500 |
|------------------|--|--------------------------------|
| Filling System | Auger Screw Filler With revolution counter | |
| Package Size | W:60-190mm L 50-230mm | W:80-240mm L:50-300mm |
| Packing Speed | 35-80 bags/min | 25 – 70 bags/min |
| Packing Accuracy | ≤ 100g, ≤±2%; 100 – 500g, ≤±1% | ≤ 100g, ≤±2%; 100 – 500g, ≤±1% |
| Sealing Type | Central seal, Pillow Bag Or Gusset Bag | |
| Power Supply | 3P AC208-415V 50/60HZ | 3P AC208-415V 50/60HZ |
| Power Required | 4.5KW | 5.5 KW |
| Weight | 300KGS | 630KGS |
| Package Material | Laminated Heat Sealable Film | |
| Air Consumption | 6bar 0.15m ³ /min | 6bar , 0.15m ³ /min |
| Dimensions | 1150×850×2230mm | 1650×1300×2580mm |
| Hopper Volume | 25 L | 25 L |
