

## *CKDXD-50Q Stick Tea Bag With Holes Packaging Machine*

This stick tea bag with holes packaging machine is mainly used to pack tea bag with holes, automatically making holes, weight, bag-making, filling, sealing, and cutting. This stick tea bags making machine is with low noise, clear sealing texture and strong sealing performance.

### **Applicable:**

1. Be suitable for all kinds of industries like food, medicine; cosmetic; Industrial Products. etc.
2. Can pack like small granule tea, coffee with sugar, instant coffee, 3 in 1 coffee, instant drinks and medicinal granular etc

### **Features**

1. The color control system which can get the complete trade mark design (Photo electricity control system).The machine fix stepper motor controller, its advantage is precise, needless to adjust other part.
2. Intelligent temperature control by temperature controller to make heat balance better. use bilingual display screen control system and stainless steel cabinet
3. With imported original Delta PLC Control System, Good stability, good use, easy to operate and durable in using time.
4. This stick tea bag with holes packaging machine is equipped with Alarm System (You can set quantities on PLC control panel, for example 10000 pcs, when it up to this quantity, it will sound to remind you it finish packing of 10000 pcs, it will begin to alarm when at 9995 pcs)

## Technical Data

<b>Model</b>	<b>CKDXD-50Q</b>
Machine Speed	20-50 Bags/min
Measuring Range	1- 10 g
Making bag size	(Width) 20-80 mm (Length)30-160 mm
Weight	Gross Weight: 350KG
Bag type	Seamless center sealed stick
Notch	Zigzag Notch( Cut )
Voltage	AC220V Single- phase 50HZ or 380V/50HZ three phase
Total Power	3 KW
Machine Dimension	Length:2000 * Width:700 * Height:2300mm
