

## *Eye Mask Patch Patches Cosmetic Gel Making Filling Machine Packing Machine CM-EM*

Suitable for makeup salon, cosmetics studio, makeup artist.

The device solves the eye mask blank of automated production, greatly reduce the labor costs, covers an area of space, but also to ensure the uniformity of the product.

### **Function:**

- Applicable to crystal film skin care products;
- Crystal film adopts potential display to adjust the thickness of the film, and the film thickness is uniform;
- The molding tool die is made of stainless steel to avoid secondary pollution during crystal film forming;

- Touch-screen human-machine interface control of the operating system, including thickness control and speed change; Eye Mask Collagen Eyelash Making Machine Gold Drying Machine OEM Service
- The appearance of the whole machine adopts aluminum profile and 304 stainless steel wiredrawing board combination, with suspension touch screen, high-grade atmosphere.
- This machine is composed of two parts: automatic film forming machine and film cutting machine, which can complete the automatic molding of 12 boxes of products into boxes in a single operation; the film-forming machine feeds the material from the upper and lower layers at the same time. After cooling down by the cooling fan, the film is formed quickly. After meeting at the outlet, the multi-layer material is automatically stacked and automatically cut.

#### **Technical Parameters:**

- Capacity: 600 bottles/h (12bottles/time);
- Power: 220VAC, 50HZ;
- Air source: 6-8KGF/CM2;
- Air consumption: 20L/MIN;
- Weight: 1200KG;
- Dimension: 5000\*880\*1600.
