

FLG-1000A Screw Powder Filling Line

FLG series automatic screw blanking powder filling machine adopts PLC and auger filling mechanism.

Application:

Series automatic screw blanking powder filling machine is applied to fill powder materials in the fields of food daily chemical and medicine etc.

Advanced design

- Made of stainless steel: totally adapt to the requirements of GMP or other food sanitation certification.
- Work stable, with counter function.

Technical data:

Model	FLG-20	FLG-500	FLG-2000	FLG-5000
Powder	0.7KW	0.7KW	0.9KW	1.3KW
Voltage	220V/50HZ			
Product Capacity (B/min)	50	40	50	25
Packing	1-20g	50-500g	200-2000g	500-5000g
Machine Size(mm)	850L*500W*1850	900L*500W*1900	900L*550W*2000H	
Net Weight	150KG	200KG	250KG
