

Double Vacuum Machines HVC-510/2SB

Double chamber machines from Hualian are easy to operate, clean and service. Two chambers for increased productivity. Offer the highest output on the smallest footprint and also provide impressive performance over their entire machine life thanks to their production output and pack quality. Machines have optional facility to flush inert gas or multiple gases for modified atmosphere packing. Customize for your operations the most productive system of chamber size, length of seal bars, type of seal wires and pump capacity.

Suitable for small products such as meat, preserved fruits and the products made from beans in food industry, granule medicines and electronic elements. It is mini type and good capability, can prevent oxidizing, mildewing and moisture of products so to prolong the storage period or shelf of the products.

Parameters:

Model	HVC-510S/2B
Voltage (V/Hz)	AC 380/50 220/50 110/60
Motor power (W)	1800
Sealing Power (W)	600
Ultimate Vacuum Pressure (Kpa)	1
Sealing Width (mm)	10 or 2×3
Chamber Dimension (L×W×H) (mm)	610×550×150
Vacuum Pump capacity (m ³ /h)	2×20
Material for Vacuum Chamber	SUS304
External Dimensions (L×W×H) (mm)	1270×735×930
Net Weight (Kg)	Approx.230
