

## *WP-800C Automatic Capsule Filler Machine*

Capsule filler machine automatic is user-friendly, making it easy for even those with limited experience to operate. The fully automated process ensures consistent and accurate filling of capsules, thus maintaining the quality of the product.

### **Products introduction**

1. **High Capacity & Efficiency:** Capable of filling thousands of capsules per hour, capsule filler machine automatic significantly boosts production capacity, reducing labor costs and turnaround time. Its advanced automation system ensures seamless operation, minimizing downtime and maximizing productivity.
2. **User-Friendly Interface:** Featuring an intuitive touch screen control panel, capsule filler machine automatic is easy to operate and maintain. Operators can adjust settings, monitor production data, and troubleshoot issues with minimal training, enhancing overall operational efficiency.
3. **Comprehensive Safety Features:** Incorporating multiple safety sensors and interlocks, our machine capsule filler machine automatic ensures safe operation during all stages of production. Emergency stop buttons and automatic shut-off functions safeguard operators and equipment in case of any unforeseen situations.

## Product parameters

Model	WP-800C
Output	48000 capsules per hour
Making rate	Empty capsules 99.8% Full capsules 99.8%
Suitable for Capsule	000,00,0,1,2,3,4,5#
Machine weight	1000Kg
Machine Dimensions	840(+339)mm*820(+339)mm*2000mm
Power Supply	380/220V 50Hz
Motor power	4.5KW(standard)
No.of segment bores	6 holes
Vacuum	Pumping rate 48m3/h -0.03~-0.05Mpa
Dust	16Kpa 135m3/h
