

KZF-W15 Vertical Unpacking Cartoning and Sealing Machine

Technical features:

- Adopt PLC+touch screen control to display the action status and alarm information in real time.
- Operation has manual mode and automatic mode for easy operation. Through adjustment, it can realize the switching of products and cartons of different specifications
- Integrates the three functions of unpacking, packing and sealing, with compact structure and small footprint
- Equipped with horizontal box storage rack, cartons can be added at any time
- Servo stepping conveyor, precise positioning, and no misalignment in sealing. Different forms of packing can be used according to different products .After sorting, the products are pushed into the box by the side, with strong compatibility
- Equipped with a safety door, the machine automatically stops and alarms when the door is opened
- Other options:
 - ① Specified brand of electrical components
 - ② Stainless steel body/custom color

Technical parameter:

Model	KZF-W15
Power supply	380V 50HZ 3.5Kw
Air supply	≥6Kg/cm ² 0.45m ³ /min
Applicable Products	Bottled, boxed, canning, bagged, etc
Applicable carton	L200~500*W150~400*H120~400mm
Arrangement	designed according to actual packing method
Speed	5-15 case/min
Exit height	750±50mm
Unboxing Mode	Horizontal unpacking
Packing structure	Servo side push box
Carton storage method	Place the box horizontally
Tape	W48mm * L900码 Paper coreφ75mm
Tape corner length	50-70mm
Mechanical Dimensions	L2700xW1800xH1800mm
Mechanical weight	600Kg
Equipment material	The main body is made of carbon steel sprayed with plastic, and the part in contact with the material is made of stainless steel.
