

Automatic desktop 360° Labeling Machine

This Semi-Automatic 360-Degree Labeling Machine is designed for applying wrap-around labels on both round and square bottles, offering versatile and precise labeling solutions for various industries. It's suitable for a range of products, including food, beverages, cosmetics, and pharmaceuticals. The machine provides consistent, high-quality labeling that enhances product appearance and brand visibility.

Key Features:

360-Degree Labeling Capability:

- Equipped with a rotating mechanism, this machine allows for 360-degree wrap-around labeling, ensuring complete and precise label application on all sides of the bottle.

Compatibility with Different Bottle Shapes:

- Suitable for both round and square bottles, making it versatile and adaptable to various product lines.

High Precision Labeling:

- Fitted with advanced sensors and positioning mechanisms to apply labels accurately, reducing misalignment and maintaining a professional look.

Adjustable Labeling Speed:

- The machine's labeling speed can be adjusted to match production requirements, allowing for flexibility in different batch sizes and bottle types.

User-Friendly Touchscreen Interface:

- A straightforward control panel enables operators to set parameters such as label positioning, speed, and bottle size with ease, ensuring quick setup and operation.

Sturdy Construction:

- Built with high-quality materials to ensure durability, stability, and low maintenance, making it suitable for long-term use in industrial environments.

Easy Bottle Changeover:

- Designed for fast and easy adjustments when switching between different bottle shapes or sizes, reducing downtime and improving efficiency.

Applications:

This machine is ideal for medium-scale production where precision and adaptability are essential. It's particularly useful for industries with multiple product lines or unique bottle shapes, such as beverages, cosmetics, and health products. The Semi-Automatic 360-Degree Round and Square Bottle Labeling Machine ensures high-quality labeling with minimal manual intervention, enhancing operational efficiency and product presentation.

Parameter

Labeling type:	square bottle, flat bottle, special-shaped bottle, round bottle
Applicable bottle diameter:	L20-250mm W20-150mm
Applicable label size:	15-110mm
Capping speed:	900-1800 bottles/hour
Power:	1KW
Voltage:	220V/50Hz
Working air pressure:	0.4-0.6Mpa
Air consumption:	1-3m ³ /min
Machine size:	850×400×720mm
Machine weight:	40kgs
