

## *GPE-50 Automatic Carton Sealer*

The automatic carton sealer GPE-50 can automatically adjust the height and width of the carton. It is not necessary to manually adjust the carton of different specifications. It is recommended for users who need to change the carton specifications frequently. This type of sealing machine is widely used in food, medicine, toys, tobacco, daily chemicals, electronics and other domestic industries.

### **FEATURES**

- Belt driven: belt drive on both sides (left & right), it is suitable for light cartons, the upper & lower sealing is fast and smooth.
- Intelligent adjustment: The automatic carton sealer GPE-50 can intelligently adjust the width and height according to different carton specifications, it is easy to operate.
- Beautiful effect: It can be sealed by tape (or printing tape), and the sealing effect is smooth, standardized and beautiful.
- The sealing machine can be operated stand-alone or in conjunction with an automated packaging line.

## SPECIFICATIONS

MODEL	GPE-50
Conveyor speed	18m/min
Carton Size	L150-∞×W150-500×H140-500mm
Power Supply	220V 50/60Hz 1Phase
Power	240W
Adhesive Tape Width	55-72mm
Air Consumption	180NL/min
Air Compressing	0.6Mpa
Table Height	600+150mm
Machine Dimension	L1170×W900×H1350mm
Machine Weight	170KG
