

Semi-Automatic Vertical Rotary Cartoning Machine SBM-VRC80D

The machine is suitable for the pharmaceutical industry, food industry, cosmetics industry, electronic industry, etc., and can realize the packaging functions of automatic box opening, box filling, box sealing, etc. It is also suitable for assembly line.

The features of semi-automatic vertical rotary cartoner

- This machine is specially designed for manufacturers with various carton sizes.
- Compact machine design.
- Suitable for boxes of various sizes.
- Convenient to replace the box mould, short replacement time.
- 304 stainless steel shell, durable.
- Advanced PLC control system combined with 5.7 color touch screen control panel, can easily set and change parameters.

Technical Info

Model No.	SBM-VRC80D
Encasing speed	20-50 boxes/ min (related to product and box size)
Quality requirement of carton	250-350 g/m ³
Dimension range of carton(L×W×H)	(20-200) mm*(20-130) mm*(20-130) mm (can be customized)
Size range of use instructions	L (100-260) mm*W (100-190) mm
Paper quality of use instructions	55-70 g/m ³
Motor power	0.37kw
Power supply	220V, 50/60Hz, Single phase
Machine noise	Less than 80dB
Working pressure of compressed air	0.5-0.8 Mpa
Air consumption	226L/min
Machine dimension(L×W×H)	approx. 1698 × 1170 × 1600mm
Machine Weight	approx. 50KG
