

CDXGZ-1 Automatic Pneumatic Crown Capping Machine

This new automatic pneumatic crown capping machine is specifically designed for glass bottles, making it ideal for industries such as beer, soda, juice, and condiments. Utilizing advanced pneumatic control systems, it ensures efficient and stable capping operations, guaranteeing seal quality for each bottle and enhancing production efficiency.

Technical Parameters

Model:	CDXGZ-1
Bottle Height:	50-320mm
Power Supply:	220V 50/60HZ 1000W
Bottle Diamter:	φ35-φ130mm
Machine Size:	2500*950*1750mm
Cap Size:	35-100mm
Machine Weight:	250Kg
Capping speed:	0-50 bottles/min
