

TB-4B Both Ends Carton-Sealing Labeler (Double Label)

The equipment is used for pasting sealing label on the carton.

Label pre-feeding system makes the label feeding stable, stickup smoothly and label position precise.

Label-feeding adopt tensioning design to ensure that accurately control the length and uniformity of the label.

Technical Parameter:

Applicable boxes	The length of side should be more than 45mm and the height should be less than 110mm.
The label	The diameter less than 40mm
Capacity	10--16meter/min
Power supply	220V/50Hz 0.6kw
Air supply	0.6Mpa, 35-50l/min
Size	2400×600×900mm
Weight	280kg
Remark	Both ends Carton-sealing label
