

Form Fill and Sealing Machine Based CUP System

Technical Data:

Capacity: 5 GRAM to 500 GRAM

Sealing Type: Central Seal

Film Size: 100 mm-450 mm Width 100 mm-290 mm Length

Power: ½ HP Motor, 220V, 50HZ, Single Phase

Packing Material: Any Heat Sealable Laminated Film

Net Weight: 380-450 KGS. (Approx)

M/C. Dimension: (L) 1220 mm (W) 840 mm (H) 1960 mm

Features:

- All Contact Parts are stainless steel.
- Variable Speed
- Easy to operate
- Easy to Change for different pouch size and filling volume.
- Digital Photo & Temperature Controller Unit
- Fully Automatic, Compact Machine.

The filling and sealing machine are manufactures from high grade material. The powder coated MS and SS are used to fabricate the machines. These machines are used in different industries. The machine is given the controls of filling, sealing and weighing.

We, at Gujarat, provide the filling and sealing machines are available in varied options of operation like single track and multi tracks. It can be available in 2,5,6,8 and more track operation. There is a sealing option of 1, 2, 3 and 4 side sealing. Machine works so efficiently, which result in least wastage of the packing ingredient.

- Easy operation
- Precise control
- Cost effective
- Long-lasting
- Low maintenance
