

Heat Shrink Packing Machine BS-4535

KUNBA series Heating Shrink Packaging Machine widely used in food, beverage, candy, stationery, hardware tools, daily necessities, chemical supplies shrink packaging, apply heat to shrink a plastic film around a product, with a beautiful, moisture proof, preventing oxidation and corrosion effects.

Feature:

1. There are Net carried best and roll chain to be choose in carrier part.
2. Overlong shrink tunnel, brain powder tempower temperature controller with figure, closing heat wind recycle inside.
3. Possess CE guarantee quality of products

Technology Parameters

Model:	BS4535
Voltage:	380V/50HZ
Power:	15KW adjustable
Working efficiency	4*50MM
Conveyor loading	25kg Maximum
Conveyor Speed	0-10m/min
Material	PVC/POF/PE
Pack size	2150*690*1400mm
G.W	230KG
