ES AQUA LTD

Automatic Sticker Labeling Machine ES-AL

Suitable for the double diagonal labeling on a variety of square packaging, especially the automatically sealing labeling on a variety of square packaging (such as paper box) in medicine, food, cosmetics, anti-fake and other industries.

Functions and features:

Can finish four sealing labeling styles: upper surface sealing labeling, lower surface sealing labeling, and two kinds of diagonal sealing labeling.

Top pressure device make sure the box stable when labeling, greatly increase the labeling accuracy, especially suitable for small light box.

Reserve input/output signal and interface, can receive the PC's control signal online, convenient for management when link with the production line.

Technical parameters:

- The size of object being pasted: height20-100mm, width70-200mm
- Labeling speed: 80-120box/minute (related to the size of box and label)
- Labeling accuracy: ±1.0 (not including error of packing and label)
- Air pressure: 0.45-0.6Mpa (for eliminate device)
- Conveyor belt width standard: 90mm
- Power supply and total power: 220VAC±5% 50Hz 0.7KW
- Machine size (for reference):   (L) 2300*(W) 1000*(H) 1900mm
