

GFJ-50 Tube Filling and Sealing Machine

Feature:

- This machine is suitable for operating filling, sealing a quantity of viscosity of oil, cream and gel ointment, etc.
- Accuracy filling, balanced action, low buzz.
- Automatically finished overall process as tube supply, photoelectron register, inert gases filling (optional), material filling and sealing, batch number printing, finished products output.
- Adjust position outlay and position numbers video picture, quickly and accurately adjustment (suitable for varies specification and varies product producing)
- Mechanical, photoelectron, electric, pneumatic integrative controlling, reaches no tube no filling function; warning if tube error positioned or pressure too low, automatic stop machine if open the protective door.

Model:	GFJ-50; Tube material: Plastic tube, Multiple tube
Tube diameter:	φ13—φ60
Tube length:	50—250 (customizable)
Filling volume:	1800-4000pcs/H (adjustable)
Filling accuracy:	≤±1%
Working pressure:	0.55—0.65mpa
Motor power:	2kw(380V/220V 50Hz)
Heat sealing power:	3kw
Overall dimension(mm):	2620×1236×1980
Machine weight(kg):	1100
