

ZXT-2 Linear Work Table

This machine is used as the work surface when packing. The staff at both sides put the packaged bottles into the box. The device structure is simple. It is the ideal auxiliary production line equipment

Performance advantages:

- ◆ Feature enhancements - frequency conversion stepless speed regulation.
- ◆ Electrical components – using the internationally well-known brands to ensure the equipment is safe and reliable
- ◆ Mechanical parts - the main parts of the machine are made of high quality stainless steel 304.
- ◆ Maintenance situations - the machine meets the GMP requirements, easy to disassemble, clean and maintain.

Technical parameters:

- ◆ Maximum production speed: 6000 bottles/hour
- ◆ Power supply: 380 V/50 Hz
- ◆ Power: 0.37 KW
- ◆ Dimension: 2000×1000×1500 mm
- ◆ Weight: 200 kg
