Visual Inspection Machines

On-line filled & capped containers are fed in to machine via single conveyor divided in equal quantum in further movement on two lines for visual inspection by operators. Black and white background helps them to inspect the bottle visually. On inspection the bottles are placed on center conveyor for outlet.

Technical Specifications:

Model	INS-2	INS-4	INS-6
No. of Operators	2 Nos.	4 Nos.	6 Nos.
Input specifications			
Container Dia	20mm to 75mm		
Container Ht.	25mm to 170mm
