

## Carton Sealer XQ-FX-122

It can be wired or stand-alone operation, manually fold up and down the lid, together with the middle of the tape sealing

### Application

It can be wired or stand-alone operation, manually fold up and down the lid, together with the middle of the tape sealing, one-time completion of the tape device performance is precise and strong, smooth operation, long service life and good stability standard equipment specifications, according to need for equipment widening and heightening, the standard table height is 570mm (other requirements can be customized), advanced technology issued manufacture, and the structure is firm and durable.

### Function & Features

Manually fold the cover, manually adjust the width and height, apply to the narrow width of the carton, two conveyors are driven around.

### Technical Parameters

Model	XQ-FX-122
Speed	0-20m/min
Power Supply	220v 50/60Hz
Max. Packing Dimension	150-∞mm(L)*120-500mm(W)*130-500mm(H)
Power	0.24kw
Applicative Tape Width	48-75mm
Machine Dimension	1520*830*1340mm
Gross Weight	about 150kg
