

## *Ohlson Supply Hopper*

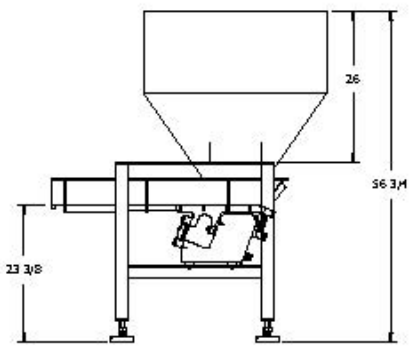

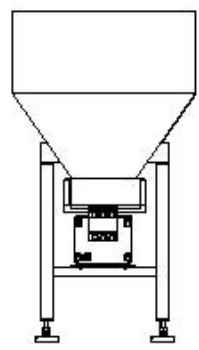

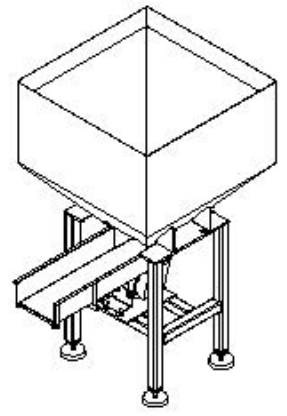

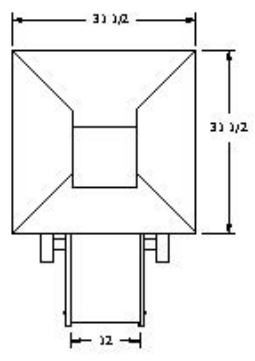

**Supply hoppers allow for the steady flow of product onto a conveyor, bucket elevator, weigher, or other pieces of the packaging process, and are often integrated into weighing and filling systems.**

**Hopper Size: Five Cubic Foot Standard (10, 15, and 20 cubic foot sizes available)**

- **Stainless Steel Construction—Flat or Dimpled**
- **Electromagnetic Feeder**
- **Variable Speed Control to Regulate Flow Easily**
- **Easy to Operate & Easy to Clean**
- **Single or multiple output**
- **Available conveyORIZED feature (Required for sticky gummies)**
- **Pneumatic Bin Hopper also available for non-free flowing products or products which require gentle handling**
- **Perforated pan (can removed un-popped popcorn kernels or other small debris)**
- **Stainless steel mesh cover**
- **Support frame for super sacks**
