

Automatic Aluminum Tube Filling And Sealing Machine MZH-ATFS

This Tube Filling And Sealing Machine is mainly used for filling and sealing of metal hoses and can be used in various industries.

Details introduced:

1. This Aluminum Tube Filling And Sealing Machine is the latest major product developed by our company. This machine is mainly used for filling and sealing of metal hose. The product adopts closed and semi-sealed filling paste, liquid, sealing without leakage, filling weight, capacity consistency is good, filling, sealing, printing a one-time completion.
2. The Filling And Sealing Machine is suitable for packaging products in medicine, daily chemical, food, chemical and other fields. Such as: cleansing milk, sunscreen, ointment, hair dye, toothpaste and other materials filling and sealing.
3. The most convenient and fast adjustment of the filling machine, beautiful appearance, compact structure. The tube holder is adjustable, which can be adjusted according to the size of filling hose.
4. All parts in contact with materials are made of high-quality stainless steel 316L, with unique body structure, which can be used for both paste and liquid. It is an ideal, practical and economical filling and sealing equipment for medicine, daily chemical, food, chemical and other industries.

Technical parameters:

Filling volume	20-150ml
Filling accuracy	1%
Production capacity	10-50 pcs/min (according to the material different)
AirPressure	>0.8Mpa >0.14M ³ /MIN
Aluminum Tube Diameter	13-32mm
Motor Power	1.5KW
Working Positions	16
Voltage	50HZ 220V
Over diameters	1700 x1000 x 1700MM
Gross weight	250KG
