

## Horizontal Intermittent Motion Cartoning Machine MKY-5VR

### Features:

- **Swing reverse carton forming**  
Improved the stability of cartons picking with 2 heads and 180°reversal system.
- **Soft square conveyance**  
Beside the comb type conveyance, soft square conveyance enhances the countermeasure against the scratches and dents. When conveying, it conveys the carton softly and when stopping it forms the carton squarely
- **Compact design**  
Reduce the installation area by 20% compared with current model MKY-5GS
- **Access**  
Reduced the height of leaflets filling the utmost and improved the efficiency. Enlarged the opening of frame to improve the efficiency of changing the parts.

### Main specification:

<b>Applications</b>	Medical supplies, Food, Cosmetic	
<b>Carton size</b>	W = 35~ 65mm H = 20~ 50mm L = 80~180mm *W + H ≤150mm	
<b>Capability</b>	40 ~100 cartons /min	
<b>Weight</b>	About 2,000kg ( Cartoner only)	
<b>Electric</b>	3 Phases 200V 10kVA	
<b>Air source</b>	0.5MPa/cm2 50L/min (ANR)
