

## Fully Automatic Box Folding and Sealing Machine YLM-201BPK

Fully-automatic box folding & sealing machine is used to fold and seal boxes/cartons automatically. It integrates a folding & sealing machine for upper side and a sealing machine for four sides.

### Features:

1. Different size of box can be put on for sealing once the machine is on. The machine can detect the box size and do adjustment automatically, no need manual adjusting. So less worker is needed and the efficiency is high.
2. The machine is stable, safe, low failure rate and cost effective.

### Technical Parameters:

Model	YLM-201BPK
Capacity	400-600 pcs/hour
Applicable Box	L320-500mm×W200-500mm×H180-500mm
Height of Platform	Min.H500mm Max.H750mm
Power	220/380V,50/60Hz
Air Source	6kg/cm <sup>3</sup>
Applicable adhesive Tape	W48mm/60mm/75mm×L1000
Overall Size	L3000×W2100×H1580
G.W.	730KG
