

YTB-150 Round Bottle Labeling Machine

This machine is suitable for labeling any round or cylindrical bottle, and the labeling and winding can be done at one time

Mainfeatures:

Adopt photoelectric detection, synchronous tracking, accurately ensure that the labeling speed is synchronized with the speed of the bottle, and the label is flattened.

Technical Parameters:

Production Speed	≤ 130 b/min
Applicable bottle dia.	Φ 30-100 mm
Applicable inner diameter of label	Φ 76 mm
Applicable outer diameter of label	Φ 300 mm
Labeling precision	±1 mm
Reel Inner Diameter	Φ 70-80 mm
Power Supply	AC 220V.50 hz
Applicable label size	L20-320mm , W20-140mm
Power	220v
Assembly line speed	20m/min
Weight	~ 400 kg
Machine Size	2000 x 1200 x 1500 mm
	(LxWxH)
