EYH Series Two-dimension Mixer

This machine is widely applied in pharmacy, chemical industry, food industry dyeing industry, feed industry, fertilizer industry and pesticide industry. It is special for mixture of various solid materials with a capacity of (1000L~10000L).

Features:

The mixing vessel of this machine also swings on transmission, so that the materials in it can be mixed completely. The outlet of the mixing vessel equips screw vanes. So the machine is characteristic of fast mixture, large capacity and easy discharge.

Technical Specifications

Model	Barrel (L)	Feeder (L)	Feeding (kg/time)	Rotating (r/min)	Power (KW)	Overall size (mm)	Weight (kg)	Barrel weight (kg)
