

Back Seal Rock Sugar Granule Packaging Machine

Back seal granule packaging machine is an ideal equipment for quantitative packaging of various products. The machine adopts an all-stainless steel body, which is durable and stable. The packaging machine adopts an intelligent liquid crystal display Chinese and English operating system, which is simple and convenient to operate. Vertical automatic packaging machine is easy to learn and has stable and reliable performance. It can be customized for you.

Technical Parameters:

- Bag size: (width * length) 120-180 millimeters (mm)
- Packing speed: 20-60 bags/min (bag/min)
- Measuring range: 1-1500 g/ml
- Measurement accuracy: $\pm 3\%$
- Power supply voltage: 220V50Hz (380V can be customized)
- Work rate: 1.8KW (heating 180w*4)
- Machine weight: 320 kilograms (kg)
- Dimensions: (length*width*height) 750*700*1750 cubic millimeters (mm³)
- Sealing form: four-side seal, three-side seal, back seal
