

## *Automatic Capping Machine – CE-HC-50*

The capping machine is based on the international advanced models to improve the design, quick capping speed, high pass rate and convenient operation.

Applicable to different bottle-shaped screw caps in the food, pharmaceutical, cosmetic, pesticide, cosmetics and other industries.

The speed motors are used for capping, bottle clamping, conveying and capping respectively. The machine is highly automated and stable.

Easy to use, no spare parts required when replacing bottles or caps, just make adjustments

### **Features:**

- Electrically controlled motion, strong stability
- With positioning device, screw cap standard
- Easy operation
- Lock cover
- Wide range, can lock bottle caps of different shapes and sizes
- Solve the nozzle, pump head, spray pump, hand button nozzle
- Difficult to screw cap
- The speed of the cap is adjustable, and the tightness can be adjusted according to different caps.

**Technical Parameters:**

<b>Model</b>	<b>CE-HC-50</b>
<b>Voltage</b>	220v 50/60Hz
<b>Air pressure</b>	0.5-0.7MPa
<b>SS Material</b>	SUS304
<b>Capping diameter range</b>	60-80mm
<b>Capping heads</b>	1
<b>Capping speed</b>	20-30 bottles/min
<b>Machine size (LxWxH)</b>	2000 x 1200 x 1800mm
<b>Weight</b>	350kg
