

CFD-8 Automatic Cup Filling and Sealing Machine

Details:

- This is new designed machine for filling and sealing of juice, ilk, fresh cream, jelly, pudding, mineral water, seasoning and daily chemical etc.
- The machine is fully automatic in whole process including cup dispatching, liquid filling, film placing, date coding, heat sealing first, photoelectric pattern proofreading, heat sealing again, cutting and cup discharging.
- The machine is simple to operate, reliable, easy to maintain, Madding in stainless steel and complies with hygiene standards.

Technical Data:

Model	CFD-8
Source	380V 4.5KW
Capacity	7000-9000cups/H
Filling Valume	100-250ML
Air Source	PE/ALUM
Dimension	395×130×175cm
Weight	1000Kgs
