

## Multifunction Horizontal Packaging Machine DXD-580

The multifunction horizontal packaging machine is an improved packer used for the big size products. With full computer control and high precision, the packaging machine is ideal for pillow type packing of solid state goods like food (bread, hamburgers, buns, instant noodles, assorted crackers, etc.), commodity articles for sanitation use, and hardware fittings, to name a few.

### Accessory Equipment:

The multifunction horizontal packaging machine can be installed with accessory equipment such as date printer and triangle device.
