

## Automatic Plastic Cup Sealer Series

This machine applies to the filling and sealing of various dairy products, and drinks with wide-mouthed glass as container. The filling machine of this series has the novel design, compact structure and practical functions, which can automatically finish the process of filling, sealing, date-printing, cutting, discharging and collecting film and counting. In addition, according to your special requirement, it can be customized.

### Main Technical Performance:

Type	SQF-2	SQF-4
Output (cup/h)	2000	3600
Horse power (kw)	2.25	4.5
Voltage (v)	220v	380/220v
Overall dimension	1510×470×1570 mm	1980×700×1550mm
Weight	about 280kg	about 500kg
Sealing film width	190mm	350mm
Filling amount	150-200ml/cup	160-250ml/cup
