

## *FR-900V Continuous Film Sealing Machine*

Automatic sealer machine FR-900 Stenciled date print Embossed Marking round, Continuous Plastic film bags sealing machine. It is a new model of automatic plastic film sealing machine, which integrates color printing, sealing, continuous transmission of products, with clean and bright pattern on the sealing part, color selectable, instant printing and instant dry, and convenient to change the characters.

### **Feature:**

1. Strong sealing seam;
2. Unlimited sealing length;
3. Rugged Powder Coated All-Metal Construction;
4. Create sealing width 12mm(Max);
5. Sealing belts are oriented horizontally to allow for easy access and high throughput;
6. Max loading weight of 3 kg is ideal for most consumer good packaging applications;
7. Sealing speed and temperature adjustable with film thickness to ensure sealing quality;
8. Electronic constant temperature mechanism;
9. Steeples speed regulating transmission motor;
10. Flexible height and wide changed with packet size;
11. Optional Imprinter;
12. Embossing Printer to mark Manufacture Date/ Expiry Date/ Lot Number onto sealing seam;
13. Two types: FR-900(Horizontal) and FR-900V(Vertical).

**Parameters:**

<b>Model</b>	<b>FR-900V</b>
Name	Continuous Film sealing machine
Power	500W
Sealing width	0.24"-0.47"(6-12mm)
Sealing speed	0-12m/min
Temperature range	0-300
Voltage	110/220V 50/60Hz
Max. conveyor loading	6.6lb(3Kg)
Machine size(L*W*H)	870*400*600mm
Packing size(L*W*H)	850*450*355mm
Weight	25Kg
Packing Weight	27Kg
Printing category	Steel Wheel Printing
Package	Carton
