

FND-F550A Automatic Flow Packaging Machine

- Automatic flow wrapping machine for chocolate bar, tables, biscuits, wafers, nougat, sponge cake, jellies, crackers, gum etc.
- High-performance servo motor control.
- Sealing control by AC servo motor, wide range adjustment of film feeding length.
- Film feeding control by servo motor, mechanical ratio automatic recognition improve the accuracy and speed of film register.
- Data adjust by tough screen, convenient of HMI interface, indicate and detect malfunction the machine automatic detect and adjust the wrapping speed according to condition of products feeding, saving wrapping film.

Max.production Capacity	400 pcs/min
Packing Range	Length Of Bag: 55-185mm
	Width:15-60mm
	Height: 5-30mm
Gross Power	7KW
Power Supply	380V 50HZ
Gross Weight	1800kg
Machine Size	5800x960x1750mm
