3. Tips: in order to basic filling and sealing functions, other functions can be added or reduced according to the needs, and can be customized in various sizes of the cup box!
4. Packaging principle: the machine is a Full-automatic filling and sealing machine, which can automatically pour the cup through the bottom controller and various pneumatic electronic accessories.

Product parameters:

Modle	MZH-1000 (1 to1)	MZH-2000 (1 to 2)
Packing speed	1000 Cup/hour	2000 Cup/hour
Voltage	110V/220/380V	110V/220/380V
Power	1KW	1.6KW
Pressure	0.4-0.6MPA	0.4-0.6MPA
Size	100*100*175cm	120*120*175cm
Weight	300KG	380KG
Filling capacity	10-300ml	10-300ml(Or customized according to the cup capacity)
Cup diameter	Customized according to customer requirements	Customized according to customer requirements
