Automatic Bottle Fruit Juice Processing Machine RCGF-series

This Automatic Bottle Fruit Juice Processing Machine has washer, filler, capper three functions in one body, the whole process is automated. It is suitable for high temperature PET bottled juice and tea beverage filling. It adopts advanced micro-pressure gravity filling principle. It has a complete perfect recirculation system, and can also achieve a separate return gas without contact with the material, avoiding secondary pollution and oxygen. It is made of high quality SUS304 stainless steel.

Our advantage

1. All core components are manufactured by CNC machining center. Whether it is a small production line of 2000 bottles or a high-speed production line, it is composed of the entire CNC machine.
2. Our factory has 15 years of production experience, no experience in return and complaints, and exported to more than 30 countries and regions.
3. Customer feedback on after-sales service is fast and comprehensive.
4. PLC, inverter and other electrical components are selected from internationally renowned brands, such as Omron, Mitsubishi, etc.

Technical Parameters:

Model	RCGF14-12-4	RCGF18-18-6	RCGF24-24-8	RCGF32-32-10	RCGF40-40-12
capacity(BPH)	3000	6000	8000	10000	15000
washing heads	14	18	24	32	40
filling heads	12	18	24	32	40
capping heads	4	6	8	10	12
diameter of bottle	50-100mm				
height of bottle	100-300mm				
main motor power(kw)	2.2	3.7	5.5	7.5	11
